# Corporate social responsibility policy

## Purpose

The purpose of this policy is to set out the values of the organisation in relation to corporate social responsibility, with particular emphasis on the environment.

## Definition

Corporate Social Responsibility (CSR) is about how companies conduct their business in an ethical way, taking account of their impact economically, socially, environmentally and in terms of human rights. CSR includes social partners such as local communities, and global responsibilities such as protecting the environment.

## Statement from pbh rail

*Pbh rail believes that CSR is integral to our business. We are dedicated to being a good employer, making a positive contribution to our local community and minimising our environmental impact. We believe in trustworthiness, integrity and honesty in all areas of our work. We encourage respect, dignity tolerance and fairness. We expect reliability, to keep our promises and a culture where we are careful not to harm others or the environment.*

## Impact on the environment

Pbh rail is committed to acting responsibly, and not damaging the environment. All employees are required to take this seriously and:

- Recycle materials wherever possible
- Not print off emails unnecessarily
- Consider the ethical stance of suppliers before placing orders
- Dispose of any chemicals responsibly and carefully
- Think about the impact of their actions on the local community.

## Interactions with the community

It is important to the organisation to develop good relationships with the community where we operate. Employees are encouraged to become involved in community activities and might (depending on business demands) be allowed some time off to assist in community events. Employees must make every effort not to damage the relationships that the organisation has with the community.

## Induction process

All employees must be introduced to the approach pbh rail takes to CSR and the environment during the induction process. Line managers are responsible for ensuring that this has happened, and that employees have understood all aspects of the ethical stance.

Service Delivery

The delivery of all services within the organisation must be carried out within the guidelines set by the ethical stance.

Communication

All communications from pbh rail must adhere to the ethical stance as set out in this policy.

We also undertake to check our supply chain and subcontractors to ensure they are aware of the legislation and to ensure they provide us with their anti-slavery statement (if relevant) or their commitment to the principles enshrined in the Act.
